

“The arts are fundamental resources through which the world is viewed, meaning is created, and the mind is developed.”

– Elliot W. Eisner,
Professor of Education and Art
Stanford University

ARTreach offers corporate partners a unique opportunity to align with our community’s artists and educators to ensure the health, education, and wellness of underserved populations. Select contributions can support programs aligned with the company’s interests and core competencies as well as involve employees on several different levels. ARTreach sponsorship opportunities will provide excellent visibility for your company.

Of course, all of our PARTner levels include recognition on our website, tickets to special events, and acknowledgement of various levels in our newsletters, blog sites and other media. But we strive to go beyond the standard expectations with opportunities for you, your employees and your customers. We encourage your ideas for other possibilities.
